EDUCATION

•Bachelor of Engineering in Computer Science and Engineering

2022-26

Adichunchanagiri Institute of Technology, Chikkamagaluru

CGPA: 8.3

•Higher Secondary Education (Class 12)

Percentage: 86.66

MDR Science PU College, Tumakuru

TECHNICAL SKILLS AND INTERESTS

Programming and Web Technologies: Java, HTML5, CSS3, JavaScript, React.js.

Web Dev Tools: VS Code, Git, GitHub.

Cloud/Databases: MySQL, MongoDB.

Concepts: OOP, JDBC, REST APIs, MVC Architecture, JWT Authentication.

Soft Skills : Problem Solving, Self-learning, Adaptability, Team Collaboration.

Development Practices: SDLC, Agile Methodology, Debugging, API Integration.

PERSONAL PROJECTS

Gym Membership Management System

- Engineered a full-stack Gym Membership Management System using Java, JSP, Servlets, MySQL, JDBC, React.js, HTML5, CSS3, and JavaScript.
- Integrated secure user authentication, member and trainer management, attendance tracking, membership handling and reporting features using MVC architecture, RESTful communication, and relational database concepts.

ShowTracker - Ticket Booking Platform

- Developed ShowTracker, a web-based ticket booking platform that enables users to discover and reserve tickets for movies, events, and sports activities.
- Implemented location-based search, responsive user interfaces, booking management functionality, and efficient storage of user and booking data using a relational MySQL database.

Identifying forest burned area using a deep learning model based on optical and sar remote sensing images

- Designed and Implemented a dual-path deep learning model (DARU-Net) for identifying forest burned areas using multi source satellite imagery.
- The web application allows users to upload satellite images and receive detailed analysis, including burned area size, accuracy metrics, and visualization of the detected regions.

CERTIFICATIONS

Programming In Java

Jan-Apr 2025

NPTEL Certificate

(Indian Institute of Technology Kharagpur)

- Earned certification in a 12-week government recognized Java course covering core Java concepts including OOP, exception handling, multithreading, file I/O, and data structures.
- Applied concepts through graded programming assignments and a final proctored exam, gaining hands-on experience in building Java applications.

Full Stack Web Development

October - 2025

GeeksforGeeks

(Nation SkillUp)

- Achieved certification in Full Stack Web Development certification from GeeksforGeeks, demonstrating consistency and technical proficiency in end-to-end web application development.
- Trained in full stack development using HTML5, CSS3, JavaScript, React.js, Node.js, Express.js, MongoDB, REST API integration, and Git-based version control with a focus on responsive web applications.

Java Full Stack Web Development

Feb-May 2026

Dhee Coding Lab Pvt. Ltd.

- Completed a Java Full Stack Internship at Dhee Coding Lab, gaining hands-on experience in Java, Spring Boot, React.js, HTML5, CSS3, JavaScript, JDBC, and MySQL.
- Developed responsive web applications, built RESTful APIs, and integrated relational databases. Applied OOP concepts and MVC architecture to deliver scalable and efficient solutions.
